Summer Wild Robinson - *Art Inspired Founder & Facilitator*

Summer's one of the lucky ones who utilises both right and left sides of her brain with ease! Summer has 8 years experience in the corporate world working within Business Psychology and Learning & Development firms. Her facilitation experience including focus groups, client forums, user groups, training sessions and engagement workshops and has consulted to organisations regarding Human Resource across recruitment, development and retention best practice. Summer's corporate success shows that she is a powerful force in understanding and tailoring business solutions targeted at developing and promoting the success of businesses through their people.

As an Artist, Summer sought more time to let her creativity come alive and so she combined her love of artistic expression with her experience and knowledge of engagement and people development concepts and created Art Inspired.

Summer's birth name is Summer Wild... believe it or not!
